

BEEVILLE and BERCLAIRE were purchased by Donny Green, Lonestar Miniature Donkeys, from a farm following the death of the man who had raised them. The widow had no association with the donkey herd and could not tell one from the other. Donny re-registered them. Hence no pedigree; however, they have had outstanding foals.

TAMMIE was purchased by Donny Green, Lonestar Miniature Donkeys, from Marek who had no records on her. Though she had been registered by Marek. Tammie is a dark chocolate brown and she has had two beautiful dark brown jenny foals and one dark brown/black jack foal.
